## Behavioral Health Update and Request for Availability (January 2022)

Dear provider,

Happy New Year! To make 2022 a success we want to continue to support you and our members in need who require mild-to-moderate behavioral health care services.

To do this, please continue to keep us updated on your panel capacity. We are seeing increased demand for services in these areas:

- Providers who serve youth under 18.
- In-person services or option to schedule in person in the future.
- Providers who can deliver care in Spanish for members and minors with a Spanish language parent/guardian.

You can keep us updated on your availability as it changes by email or by phone:

- **By email:** [HPSM\\_BH\\_Provider\\_Availability@hpsm.org](mailto:HPSM_BH_Provider_Availability@hpsm.org)
- **By phone:** 650-616-2580

Thank you for your commitment to our community,  
The Health Plan of San Mateo

PS: If you need resources for reopening your practice safely, please visit our website here:
