June 2022 Behavioral Health Provider Update

Dear behavioral health providers,

We're nearly halfway through 2022 and want to thank you for your continued commitment to our community. To help us continue to deliver exceptional care for our members, please keep us updated on your panel capacity.

We are seeing increased demand for providers who:

- Serve youth under age 18.
- Offer in-person services (or the option to schedule in-person in the future).
- Deliver care in Spanish for members, or minors with a parent/guardian who has a Spanish language preference.

As a reminder, when sending us your availability, please include the following information:

1. Your name or agency name.
2. Your provider NPI (and / or your HPSM Provider ID).
3. How many openings you have for new members.
4. What age groups that you serve.
5. Any changes to your ability to offer services in additional languages.

You can keep us updated on your availability by phone at **650-616-2580** or by email at [HPSM BH Provider Availability@hpsm.org](mailto:HPSM_BH_Provider_Availability@hpsm.org).

Thank you,
HPSM Provider Services
