Reimbursement Rate Update for Intermediate Care Facilities

Dear providers,

Each year Medi-Cal updates reimbursement rates for Intermediate Care Facilities, Developmentally Disabled (ICF/DD), Habilitative (ICF/DD-H), and Nursing Facilities (ICF/DD-N).

This year, effective August 1, 2022, former Proposition 56 Supplemental Payments have transitioned to be included as part of these payments.

This notice is to advise you that the Health Plan of San Mateo (HPSM) is in the process of aligning with these new rates, and we will be adjusting all claims that were paid at the previous year's rates retroactively to August 1, 2022.

If you have submitted claims for service after the effective date and received payment at the old rate, please do not submit provider dispute resolutions, claim correction requests, or rebills for corrected payment. All claims are being reconsidered, and you will automatically receive payment for the difference. We will continue to keep you updated throughout this process.

To learn more about this change and how it impacts providers and the billing process:
