## Care Gap Pay-for-Performance Incentive Update (for Family Practice and Adult Medicine Track Providers)

Dear provider,

We're reaching out today to share the following updates and rate increases to our Care Gap Pay-for-Performance Incentive ("Care Gap P4P") program. **See the "2025 HPSM Care Gap P4P Program Guidelines" and other documents for details here: <https://www.hpsm.org/provider/incentive-payments/incentive-payments-for-primary-care-providers>**

Clinics are assigned to either the "Family Practice and Adult Medicine Track" or the "Pediatric Track" based on the age range of assigned members. **If you received this email, your practice/group has been assigned to the Family Practice and Adult Medicine track.** "2025 Care Gap Pay-for-Performance Incentive Stellar Value Units Family Practice and Adult Medicine Track" applies to providers in this track.

- Effective April 1, 2025, Stellar Value Units (SVU) in this track reflect a +20% increase to the prior base SVU structure.
- Newly added action centers:
  - Chlamydia Screening for Patient 16-24 years of age (CHL): Earn up to 20 SVUs per patient annually.
  - Statin Therapy for Patients with Cardiovascular Disease (SPC): Earn up to 40 SVUs per patient each quarter.
  - Statin Therapy for Patients with Diabetes (SPD): Earn up to 40 SVUs per patient each quarter.
- HPSM maintains the commitment to "make whole" clinics who earn less in the 2025 calendar year (January 1–December 31, 2025) under Care Gap P4P compared to what their earnings would have been for the equivalent number of days under Benchmark Pay-for-Performance Measurement Year 2025.

Thank you for your partnership in support of our community's health.
