“BARRIERS TO BLACK BREAST FEEDING”

PRESENTED BY SAN MATEO
COUNTY PRENATAL ADVANTAGE
BLACK INFANT HEALTH

Dear HPSM Provider,

Don't miss this great opportunity to learn more about resources and steps you can take to support your Black and African American perinatal patients. As a follow up to **2020's National Black Breastfeeding Week**, Black Infant Health (BIH) of San Mateo County is offering a second opportunity for providers to learn about how racism impacts Black and African American breastfeeding, and how programs like BIH are increasing black breastfeeding rates. HPSM is excited to co-sponsor this event for our network providers.
